

## IMPORTANT CONSIDERATIONS WHEN HOSTING VISITORS FROM OTHER COUNTRIES

**PLEASE NOTE:** The official University/College/Department invitational letter should not be sent until the appropriate Export Control Certification form is **reviewed and signed** by the Export Control Officer. This would prevent UNC Charlotte from having to withdraw the invitation. The Export Control Officer's determination may impact the clearance process of the International Students and Scholars Office or colleges and departments.

### **FUNDING AGENCIES That Typically RESTRICT ACCESS to Research by Foreign Nationals**

If you are funded by any of these agencies, approval of your visitor requires the agency's approval, possibly a license or will be prohibited. If allowed, you may be required to have a technology control plan for your research regardless of whether your visitor is intended to work on a project with you.

- NASA
- NIH

### **COUNTRIES Appearing on EMBARGOED Lists for Various Government Agencies and countries**

Supporting visitors would require at least a 3 month license application process if allowed and possibly a technology control plan, regardless of whether your visitor is intended to work on a project with you.
